

# Country Focus: Indonesia

## **A value-added provider of oil and gas logistics, project logistics, and related ancillary services to its customers.**

With its head office in Jakarta, Altus has been operating in Indonesia since 1973 and today boasts a network of 10 offices and 18 supply bases across the country.

Despite Indonesia's geographical challenge, we have an extensive network of owned offices located throughout the Indonesian archipelago to ensure quality service in terms of time, safety, reliability, scheduling, and all-in cost.

We serve a growing number of major international energy and industrial clients who demand various services including supply base management, logistics, procurement, inspection services, manpower supply, maritime chartering, and husbanding—all provided in a flexible, seamless, and integrated package delivered safely at competitive pricing.

In addition, we are agents for various offshore principals providing value-added services in Indonesia.
