

Country Focus: Norway

We assist our customers to achieve their objectives by understanding their business and changing needs.

Altus Norway offers a gateway to both Scandinavia and Europe, operating on a 24/7/365 basis. We are committed to providing service excellence so that our customers experience a personal touch in everything we do.

Individually and within the group, we have the expertise and in depth knowledge of handling supply chain management and logistic services/freight forwarding for large projects within the oil and gas, shipping, and energy industries.

Innovation and continuous improvement lies at the core of what we do and we are always looking for ways to service our customers with tailor-made solutions at optimum cost.
