

Country Focus: Singapore Head Office

Altus's core strength lies in offering its customers tailor-made, integrated services across the supply chain.

Altus Group's worldwide headquarters is located in Singapore with the main office at Anson Road, and two supply bases located in Jurong and Loyang. Singapore is strategically located on key shipping and air routes, and acts as a regional hub in supporting operations and projects.

In Singapore, Altus has over 5,600 m² of office and warehouse, and more than 18,000 m² of open yard space where dedicated staff provide 24/7 support. Being an MES (Major Exporter Scheme) trader gives Altus a key competitive advantage by allowing us to import and store materials and equipment in Singapore for non-Singaporean companies with no customs duty or GST.

Altus is certified by DNV for ISO 9001, ISO 14001, and OHSAS 18001, demonstrating Altus's commitment to maintaining a safety and environmentally responsible culture.
