

Experienced team working with oil companies, drilling contractors, FPSO operators, service companies, and suppliers.

Altus Oil and Gas Services is located in Houston, and backed by a dedicated team of experienced, specialized, and knowledgeable personnel servicing the oil and gas market.

Guided by a strong vision to be a global leader in providing integrated services to the oil and gas, mining, and infrastructure project markets, Altus operates 30 offices around the world located at key strategic locations including Indonesia, Vietnam, Cambodia, UAE, Norway, Netherlands, USA, China, Singapore, and Australia.

These offices enable Altus to control the flow of goods from critical ex-works locations to the final destination. Altus's custom-built, state-of-the-art, in-house materials management system (MMS) provides stakeholders with full visibility as goods move through the supply chain.

With a proven track record in supporting the world's top oil and gas, mining, and infrastructure construction companies; Altus makes supply chain management safe, environmentally compliant, and simple for you.
